To Whom It May Concern:

Our company depends heavily upon having access to reliable internet service in order to conduct daily business. Without it we are unable to generate work orders for our customers, create purchase orders to obtain materials for these jobs or even maintain our inventory system.

Throughout the last year we have experienced daily disruptions of internet service varying in severity from a minute of inconvenience to total inability to function for hours. Our service provider has reviewed all aspects of our connection and has advised that the cables in our area are very old and unable to properly accommodate all the new development in our area and that "upgrades" are scheduled for completion in the "near future."

Therefore, this letter represents our support for the efforts of Sane Consulting in promoting fiber optic installation throughout the city of Medicine Hat.

Sincerely,

A handwritten signature in black ink, appearing to read "Donovan Bellamy", with several horizontal strokes underneath.

Donovan Bellamy  
Owner/GM
